📍 **Live Webcasting**

📍 **Recorded Footage Webcasting**

📍 **Video On Demand delivery**

📍 **Live & Vod Facebook streaming**

📍 **Filiming & Media Production**

📍 **Encoding Services**

Live Webcasting of your Events!

Your focus should be on your event or function you organize. You need not worry about your near and dear ones across the globe missing the event!

Through our professionally managed Webcasting services, we can handle full-scale production of a live webcast, Video production, Video Mixing, Content acquisition, Live Broadcasting and delivery to viewers across the world. They are free to watch the event live from the comfort of their homes or workplaces. Our End to End Webcasting Services include

- Live Webcasting
- Recorded Video Webcasting
- Video on demand (VOD) streaming
- Live Webcasting on Facebook
- Professional Encoding services
- Onsite Filming (Single & Multicamera Shoorts)
- Professional AV Switching
- Custom Website delivery

Leverage the Power of Live Webcasting !

The impact of delivering your Event to your audience who could be anywhere across the world in real-time is highly effective than using recorded videos or less reliable "word - of - mouth" or other electronic or print media forms such as emails and letters. With our Live broadcasting services, you can deliver high-impact, online rich media webcasts directly to your audience. We can also record your events and make the video available for online viewing after the event is over. We take care of Broadcast integration with our website or customer's website, overall management and coordination.

Nothing succeeds like a compelling live webcast

Trust us, to make your event a success; we deliver professional quality, performance and reliability at affordable costs.
